

The Next Generation is
Coming...

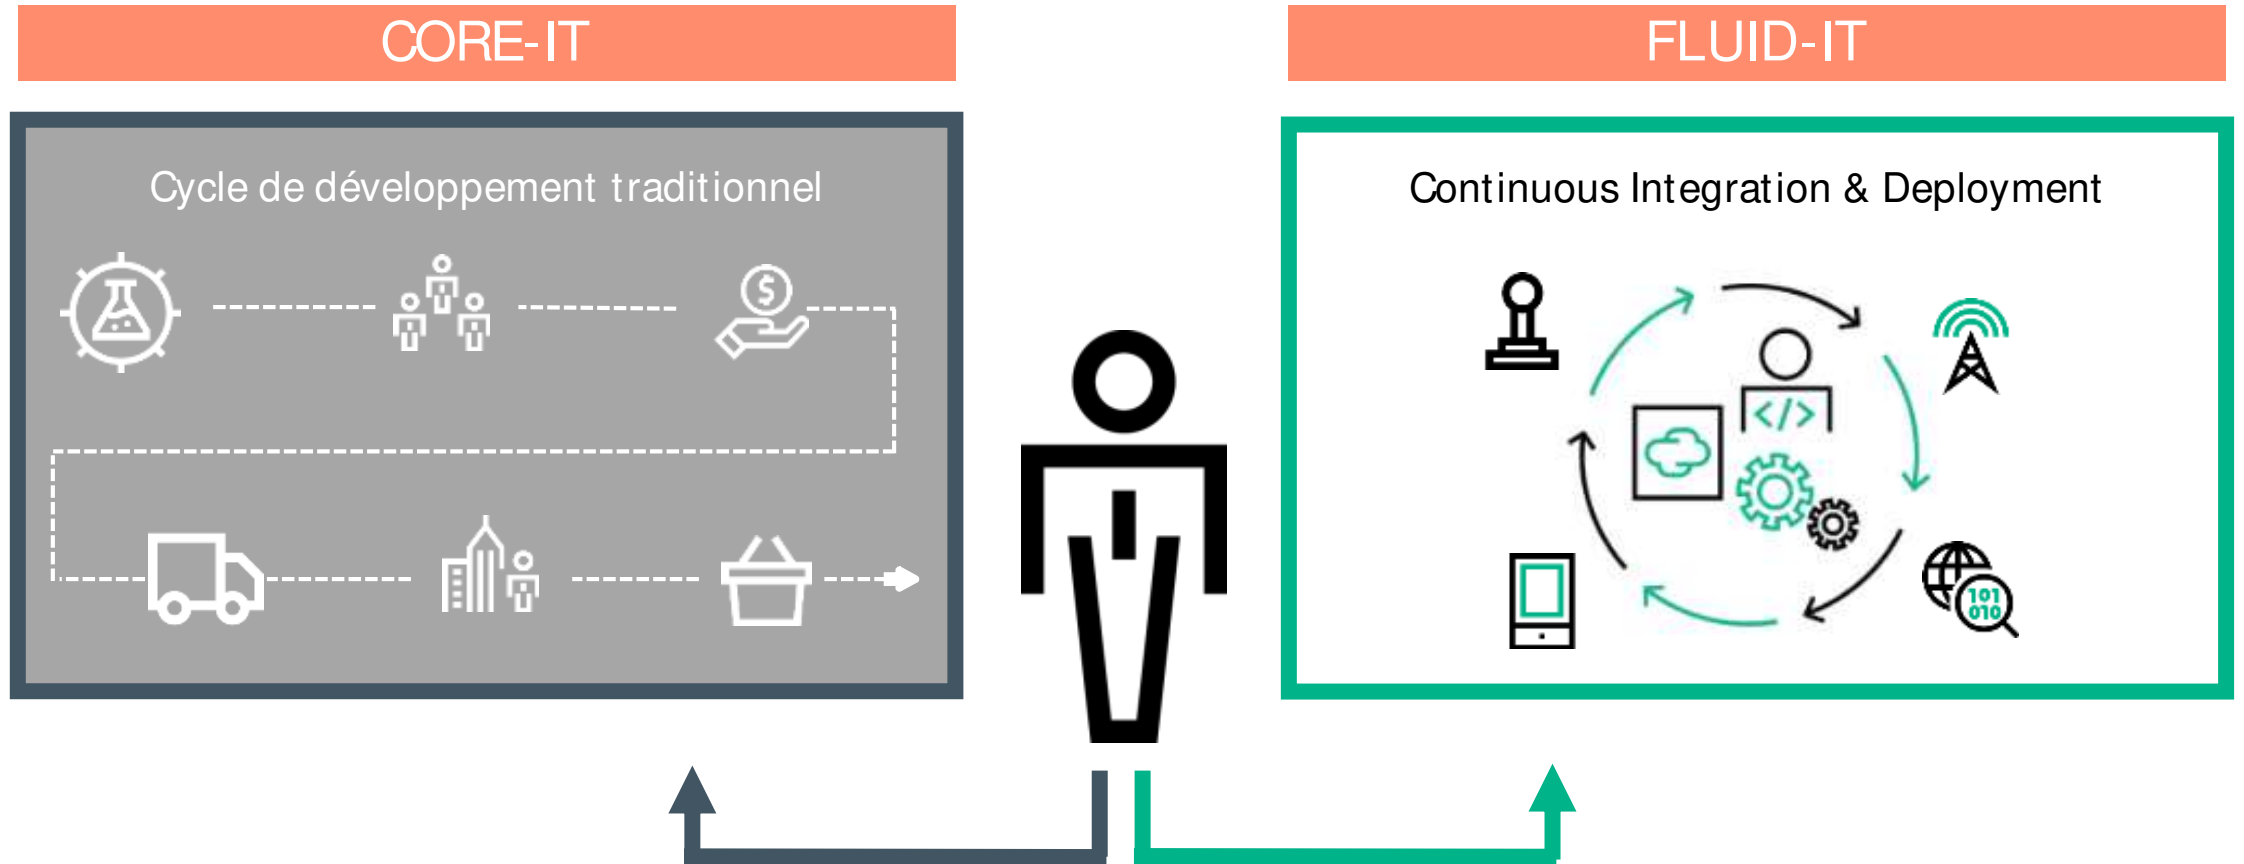

An aerial view of the London skyline at sunset. The sky is filled with large, golden clouds, and the sun is low on the horizon, casting a warm glow over the city. In the foreground, there are numerous older, multi-story buildings with traditional architecture. In the background, several modern skyscrapers are visible, including the Shard, the Gherkin, and the London Bridge Tower. A semi-transparent dark grey horizontal band is overlaid across the middle of the image, containing the text "The Evolution of Application Delivery is here" in white, bold, sans-serif font.

The Evolution of Application Delivery is here

Il s'agit d'une évolution et non d'une révolution

L'IT bimodale est clé et restera présente encore longtemps*

Il s'agit d'une évolution et non d'une révolution

ALM
Next
Generation

Backlog

- Gestion des themes, features & user stories
- Gestion des tests automatisés indépendamment du robot utilisé (UFT, LeanFT, Selenium, Junit, ...)
- Approche BDD pour les tests manuels (Gherkin)
- Tableau de bord dynamique et contextuel
- Gestion des releases de produit
- REST API disponibles

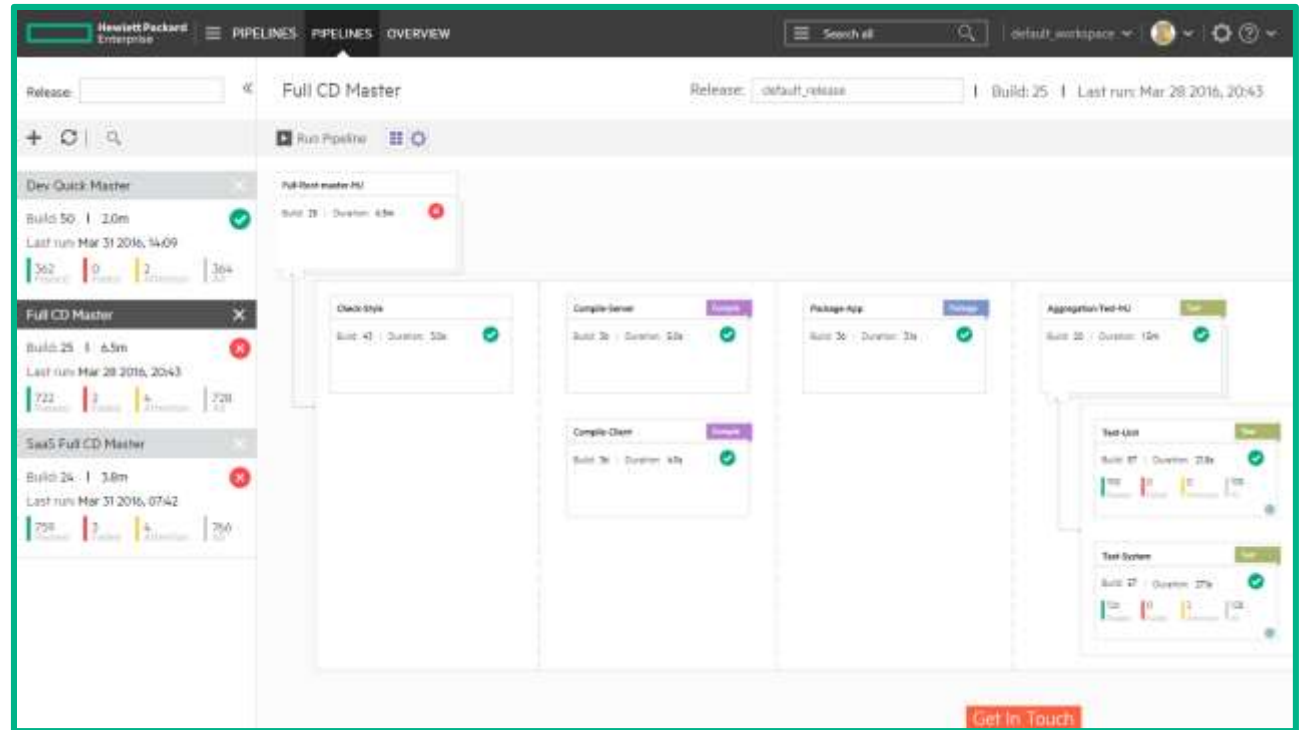

Backlog en action

The screenshot displays the Backlog software interface. At the top, the header includes the Hewlett Packard Enterprise logo, a hamburger menu, the word 'BACKLOG', a search bar, and user profile information. Below the header, a breadcrumb trail reads 'Backlog / Contact Management / Manage Contacts' with a tooltip 'User can delete a contact'. A navigation bar shows '1 out of 10' items and a 'Move to Awaiting Review' button. The main content area has tabs for 'Details', 'Relations', 'Steps', 'Runs', and 'Attachments', with 'Details' selected. A 'Copy link' button is visible. The test case details include: 'Add tag' button, 'Test type: Sanity', 'Testing tool type', 'Estimated duration: 6', 'Designer: Ollie French', 'Created: 05/05/2016 21:57:42', 'Last modified: 04/01/2016 12:29:48', 'Covered content: User can ad...', and 'Application module: Messaging'. A 'Description' field contains a block of text in a different language.

Pipeline Management

- Consolidation et visualisation de la configuration du serveur de build Jenkins
- Drill down dans les différents jobs
- Affichage du statut d'exécution des tests automatisés dans le build
- Drill down des tests exécutés dans le menu Application Modules

Pipeline en action

The screenshot displays the Hewlett Packard Enterprise Pipeline Overview interface. The top navigation bar includes the HP logo, 'PIPELINES', 'PIPELINES', and 'OVERVIEW' tabs, along with a search bar and user profile options. The main content area is divided into a left sidebar and a main panel.

Left Sidebar (Pipeline List):

- Dev Quick Master:** Build: 50 | 2.0m | Last run: Mar 31 2016, 14:09. Status: Success (green checkmark). Metrics: 362 Passed, 0 Failed, 2 Aborted, 364 All.
- Full CD Master:** Build: 25 | 6.5m | Last run: Mar 28 2016, 20:43. Status: Failure (red X). Metrics: 722 Passed, 2 Failed, 4 Aborted, 728 All.
- SaaS Full CD Master:** Build: 24 | 3.9m | Last run: Mar 31 2016, 07:42. Status: Failure (red X). Metrics: 759 Passed, 3 Failed, 4 Aborted, 766 All.

Main Panel (Detailed View):

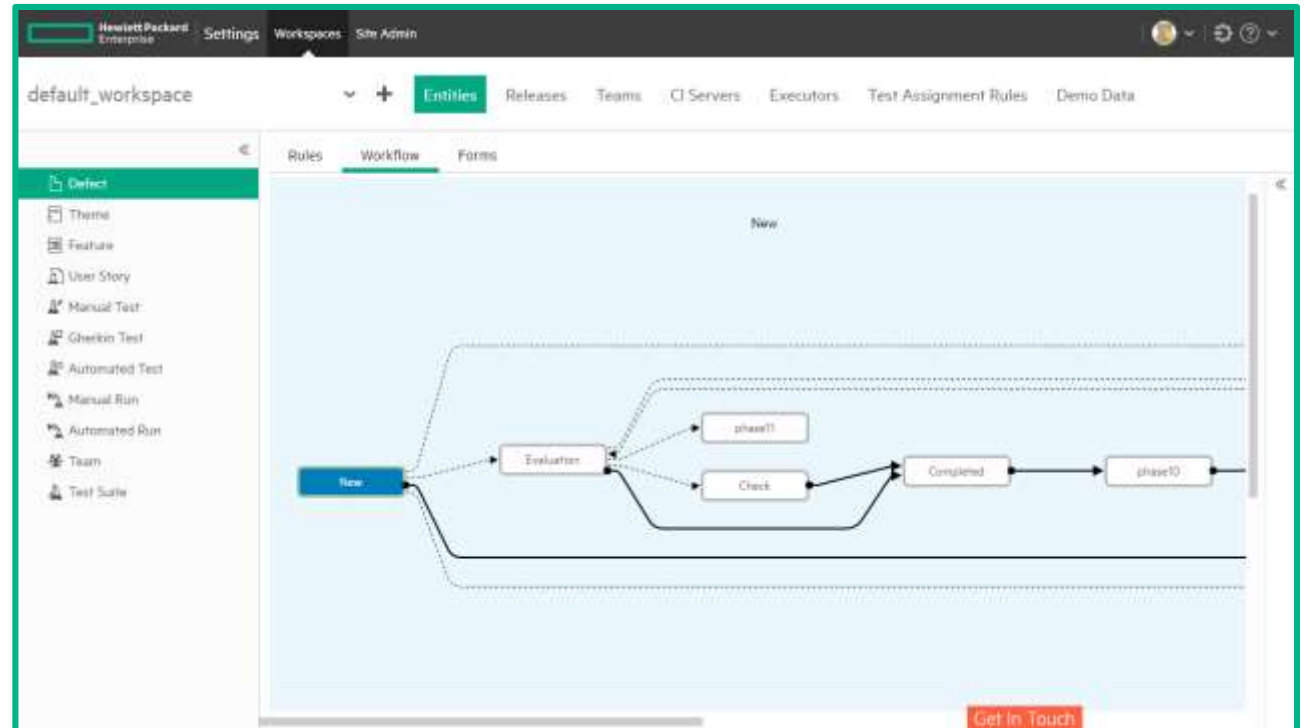

The main panel shows the details for the selected pipeline, 'Full CD Master'. It includes a 'Run Pipeline' button and a detailed view of a failed build:

- Full-Root-master-MU:** Build: 25 | Duration: 6.5m | Status: Failure (red X).

A 'Get In Touch' button is visible in the bottom right corner of the interface.

Defect Management

- Filtrage efficace à l'aide des Tags et des attributs
- Workflow graphique et personnalisable
- Visualisation graphique des relations
- Affichage plein écran des pièces jointes
- Restitution des commentaires sous la forme d'un fil de discussion

Defect en action

The screenshot displays the Hewlett Packard Enterprise Defects management interface. The main area shows a table of defects with columns for ID, Detected in release, Name, Severity, Owner, Release, Priority, and Detected by. The sidebar on the right contains filters for Release, Environment, Tags, Defects Attributes, Defect Phase, and Severity.

| ID | Detected in rele. | Name | Severity | Owner | Release | Priority | Detected by |
